WOOLEN AND WORSTED CIVILIAN APPAREL FABRICS

In the judgment of the Price Administrator it is necessary and proper to establish maximum prices for the sale of woolen and worsted civilian apparel fabrics. Therefore, under the authority vested in the Price Administrator by the Emergency Price Control Act and in accordance with Procedural Regulation No. 1,² issued by the Office of Price Administration, Maximum Price Regulation No. 163 is hereby issued.

AUTHORITY: §§ 1410.101 to 1410.116, inclusive, issued under Pub. Law 421, 77th Cong.

¹ 7 F.R. 3153, 3330, 3666.

² 7 F.R. 971, 3663.

§ 1410.101 *Prohibition against dealing in woolen or worsted apparel fabrics above maximum prices*. On and after June 22, 1942, regardless of any contract or obligation:

(a) No person shall sell or deliver any woolen or worsted apparel fabrics at a price higher than the maximum prices established by this Maximum Price Regulation No. 163.

(b) No person in the course of trade or business shall buy or receive any woolen or worsted apparel fabrics at a price higher than the maximum prices established by this Maximum Price Regulation No. 163.

(c) No person shall agree, offer, solicit or attempt to do any of the foregoing.

§ 1410.102 *Maximum prices for woolen and worsted apparel fabrics sold by the manufacturer*—(a) *Fabrics sold by the manufacturer during the applicable base period*. Except as provided in paragraph (b) of this section, the maximum price for a woolen or worsted apparel fabric which was sold by the manufacturer during the applicable base period shall be the manufacturer's opening price for such fabric in such period plus the applicable percentage of such opening price set forth in subparagraphs (1), (2), (3) and (4) of this paragraph.

(1) *Classification No. 1*. The applicable base period for all stock-dyed woolen or worsted apparel fabrics sold

for the spring season only or for both the spring and fall seasons, shall be the selling period for the spring season of 1942, and the applicable percentage shall be 12½%.

(2) *Classification No. 2.* The applicable base period for all piece-dyed woolen or worsted apparel fabrics sold for the spring season only or for both the spring and fall seasons, shall be the selling period for the spring season of 1942, and the applicable percentage shall be 10%.

(3) *Classification No. 3.* The applicable base period for all stock-dyed woolen or worsted apparel fabrics sold only for the fall season shall be the selling period for the fall season of 1941, and the applicable percentage shall be 22½%.

(4) *Classification No. 4.* The applicable base period for all piece-dyed woolen or worsted apparel fabrics other than the types enumerated in subparagraph (5) of this paragraph sold only for the fall season shall be the selling period for the fall season of 1941, and the applicable percentage shall be 20%.

(5) *Classification No. 5.* The applicable base period for manipulated piece-dyed ski or snow cloths (all wool, cotton warp or cotton filling) and piece-dyed cotton warp or cotton filling meltons shall be the selling period for the fall season of 1941 and the applicable percentage shall be 30%: *Provided*, That in no case shall the maximum price for such fabrics exceed \$1.50 per yard.

(c) *Comparable fabrics.* The maximum price for a woolen or worsted apparel fabric comparable to a fabric sold by the manufacturer during the applicable base period shall be the maximum price for such fabric determined in accordance with paragraph (a) of this section, increased or decreased by the difference in the cost of raw materials used therein: *Provided*, That raw material costs for both the comparable fabric and the fabric to which it is compared shall be the highest cost which the manufacturer would have incurred for such raw material if purchased from his customary source of supply for delivery during March 1942.

(d) *New woolen or worsted apparel fabrics.* The maximum price for a woolen or worsted apparel fabric for which a maximum price cannot be determined pursuant to paragraphs (a), (b) or (c) of this section, shall be computed by multiplying the sum of (1) the cost of the raw materials used in the fabric and (2) the manufacturing cost thereof, by the 1941 ratio of the manufacturer's weighted average selling price to his weighted average manufacturing cost of all woolen or worsted apparel fabrics. For the purposes of this paragraph (d):

The cost of raw materials and the manufacturing cost shall not exceed such costs, determined in accordance with the customary accounting practice of the manufacturer, which would have been

incurred had the raw materials been delivered to the manufacturer and the fabric manufactured during March 1942;

The weighted average selling price shall be determined by dividing the total amount received during 1941 from the sale of all woolen and worsted apparel fabrics by the total number of yards thereof sold during 1941;

The weighted average manufacturing cost shall be determined by dividing the total manufacturing costs of all woolen and worsted apparel fabrics manufactured during 1941 by the number of yards thereof so manufactured.

(e) *Premiums permitted in certain cases.* Any manufacturer of woolen or worsted apparel fabrics who, during the period between January 1, 1940 and June 22, 1942, neither produced nor sold any blended fabric composed of mixtures of wool and other fibers, shall be permitted to increase his maximum prices for such fabric, determined in accordance with paragraphs (c) and (d) of this section, by an amount equal to 10% of the cost of the raw materials from which such fabric is manufactured: *Provided*, That such amount may be added only (1) where at least 25% by weight of the new or comparable fabric is composed of fibers other than wool, (2) on sales or contracts of sale entered into prior to January 3, 1943 and (3) if it is separately shown on an invoice or similar document delivered to the purchaser.

(f) *Customary discounts and transportation costs.* (1) Every manufacturer of woolen or worsted apparel fabrics shall continue his customary terms of sale, allowances, discounts, and other price differentials to different purchasers and different classes of purchasers.

(2) No manufacturer shall require any purchaser, and no purchaser shall be permitted, to pay a larger proportion of transportation costs incurred in the delivery of woolen or worsted apparel fabrics, than the manufacturer required purchasers of the same class to pay during the applicable base period on sales of woolen or worsted apparel fabrics of the same classification.

(g) *Invoice requirements.* On and after June 22, 1942, every manufacturer making sales of woolen or worsted apparel fabrics shall, with respect to each such sale, deliver to the purchaser an invoice or similar document setting forth, in addition to the terms thereof: (1) the selling price, and (2) the maximum price determined in accordance with this section.

FEDERAL POWER COMMISSION.

[Docket No. IT-5737]

KANSAS CITY POWER & LIGHT COMPANY
DISPOSITION OF AMOUNTS IN CERTAIN ACCOUNTS; HEARING CANCELLED

JUNE 12, 1942.

Order approving disposition of amounts in Account 100.5, Electric Plant Acquisition

Adjustments, and amounts in Account 107, Electric Plant Adjustments; and cancelling hearing.

It appearing to the Commission that: (a) On January 3, 1939, Kansas City Power & Light Company, hereinafter referred to as "Company", submitted proposed reclassification and original cost studies required by Electric Plant Accounts Instruction 2-D of the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees, and the Commission's order of May 11, 1937, in respect thereto;

(b) The Commission's staff made a field examination of the Company's studies and on September 7, 1940, submitted to the Commission a report entitled "Kansas City Power & Light Company, Kansas City, Missouri, Report on Reclassification and Original Cost Studies of Electric Plant as at January 1, 1937";

Account	As reclassified by company	Per staff report	After additional adjustments
100 Electric plant.....			
100.1 Electric plant in service.....	\$73,775,744.16	\$70,619,774.19	\$70,746,451.06
100.3 Construction work in progress.....	205,503.74	205,503.74	205,503.74
100.5 Electric plant acquisition adjustments.....		1,071,294.31	1,186,824.12
Total electric plant.....	73,981,247.90	71,896,572.24	72,138,778.92
107 Electric plant adjustments.....		1,641,979.84	1,409,694.16
108 Other utility plant.....	4,301,878.30	4,311,925.13	4,311,925.13
110 Other physical property.....	248,280.43	680,929.42	671,008.42
Grand total.....	78,531,406.63	78,531,406.63	78,531,406.63

(e) By letter of June 1, 1942, the Company requested the Commission's approval of certain proposed journal entries reclassifying its electric and other plant accounts, and also approval of proposed plans for disposition of amounts included in Account 100.5, Electric Plant Acquisition Adjustments, and in Account 107, Electric Plant Adjustments;

(f) The Company's proposed reclassification entry establishes in Account 100.5, Electric Plant Acquisition Adjustments, an amount of \$1,186,824.12, and the Company proposes to dispose of this amount by a charge to Account 250, Reserve for Depreciation of Electric Plant;¹

(g) The Company's proposed reclassification entry establishes in Account 107, Electric Plant Adjustments, an amount of

¹ It appears that, of the total amount classified in Account 100.5, the sum of \$258,463.05 represents actual accruals for depreciation on the amounts classified in that account. It appears, further, that the Company proposes to dispose of the balance of \$928,361.07 to Reserve for Depreciation on the theory that such reserve is substantially overstated and that such overstatement is sufficient to take care of the amount. The Company states that for a long period of years prior to December 31, 1938, it had been its practice to accrue depreciation on intangibles and non-depreciable property, and that such accruals have resulted in a balance in the Depreciation Reserve therefor of \$1,917,835.91. It is the Company's position that the Reserve is excessive by an even larger amount, as evidenced by a finding of the Public Service Commission of Missouri in Case No. 6576, which finding indicated the reserve to be excessive as of December 31, 1937, in the amount of \$5,743,029.52.

(c) The staff report was transmitted to the Company on September 9, 1940, with the request that the Company make the adjustments proposed therein, submit a copy of the adjusting journal entries, submit a plan for the disposition of the amount of \$1,701,294.31 shown by the report as classified in Account 100.5, Electric Plant Acquisition Adjustments, and to advise whether the Company was in agreement with the plan for disposition of the amount of \$1,641,979.84 classified in Account 107, Electric Plant Adjustments, as recommended by the staff in the joint report;

(d) As a result of correspondence and conferences between representatives of the Company and the Commission staff, and a further field examination of additional data and information developed by the Company, supplemental adjustments were made by the staff, the results of which are reflected in the following table:

\$1,409,694.16, and the Company proposes to dispose of the amount as follows:

To Account 151, Capital Stock Expense, representing sundry items of expense in connection with the issuance of preferred stock.....	\$50,972.29
To Account 250, Reserve for Depreciation of Electric Plant, representing adjustments or recorded retirements.....	40,055.01
To Account 250, Reserve for Depreciation of Electric Plant, representing unrecorded retirements.....	292,165.58
To Account 250, Reserve for Depreciation of Electric Plant, representing previous depreciation accruals to October 31, 1941 on items classified in Account 107 consisting of various improper charges to plant.....	641,303.58
To Account 271, Earned Surplus, representing balance of improper plant charges.....	385,197.70

(h) Electric Plant Accounts 100.5 and 107 provide, in part, that the amounts included in these accounts shall be disposed of as the Commission may approve or direct;

The Commission finds that: (1) The Company's proposed plans for disposition of the amounts established in Accounts 100.5 and 107, as described in paragraphs (f) and (g) hereof, are in conformity with correct accounting principles and the Commission's Uniform System of Accounts Prescribed for Public Utilities and Licensees;

The Commission orders that: (A) The Company dispose of the amount of \$1,186,824.12 established in Account 100.5, Electric Plant Acquisition Adjustments, as described in paragraph (f) hereof;

(B) The Company dispose of the amount of \$1,409,694.16 established in Account 107, Electric Plant Adjustments, as described in paragraph (g) hereof;

(C) The Company's proposed reclassification entries submitted on June 1, 1942, reflecting the accounting disposition of the amounts included in Accounts 100.5 and 107 be and they are hereby approved;

(D) The Order to Show Cause, adopted on October 7, 1941, in this matter, be and the same is hereby dismissed, and the hearing now set for June 15, 1942, be and it is hereby cancelled.

By the Commission.

INTERSTATE COMMERCE COMMISSION.

TRANSPORTATION OF SPECIAL OR CHARTERED PARTIES

NOTICE TO ALL REGULAR ROUTE COMMON CARRIERS OF PASSENGERS BY MOTOR VEHICLE

JUNE 12, 1942.

In *Regulations, Special or Chartered Party Service*, 29 M.C.C. 25, division 5 prescribed rules and regulations under section 208 (c) of the Interstate Commerce Act, governing the transportation of special or chartered parties by common carriers of passengers by motor vehicle. Rules III, IV, and V (3) are as follows:

Rule III. [§ 178.3]

Origin territory. Any common carrier of passengers by motor vehicle subject to these rules may transport special or chartered parties (1) which originate at any point or points on the regular route or routes or at any off-route point or points authorized to be served by such carrier, or (2) which originate at any point or points within the territory served by its regular route or routes.

Rule IV. [§ 178.4]

Destination territory. Common carriers of passengers by motor vehicle subject to these rules may transport special or chartered parties in interstate or foreign commerce to any place or point in the United States. Special or chartered parties may not be transported from the destination territory described in this rule to the origin territory described in Rule III, except on return movement of the same special or chartered party as provided therein.

Rule V (3) [§ 178.5 (c)]

Common carriers of passengers subject to these rules shall comply with section 215 of the act and our rules and regulations thereunder governing the filing and approval of surety bonds and policies of insurance, and shall designate and file, with the board of each State in which they transport special or chartered parties and with this Commission, the name and address of a person upon whom notices, orders, and process may be served as provided in section 221 (a) and (c) of the act.

Your attention is directed to the provisions of section 217 of the act and the regulations of the Commission thereunder, which require that all fares and charges for the transportation, and all services in connection therewith, of passengers in interstate or foreign commerce

be published in tariffs filed with the Commission. The transportation of special or chartered parties is unlawful unless and until applicable fares and charges therefor have been published in tariffs lawfully on file with the Commission.

Your attention is further directed to section 215 of the act and the rules prescribed thereunder in *Motor Carrier Insurance for Protection of the Public*, 1 M.C.C. 45, which require the filing with, and approval by, the Commission of certificates of insurance or other security for the protection of the public in the minimum amounts specified in such rules.

Rule VIII [§ 174.8] is as follows:

Policies of insurance as amended by the endorsements provided by these rules covering bodily injury liability, property damage liability, and cargo liability must be written by insurance companies legally authorized to transact business in each State in which their policies cover the operations of the insured motor carrier, except that more than one policy of in-

surance may be used in cases where, in the judgment of the Commission, the territorial operations of such carriers warrant separate coverage on separate portions of their routes or territories.

Policies of insurance of regular route common carriers of passengers, as amended by the endorsement referred to in Rule VIII, must be written by insurance companies legally authorized to transact business in each State in which the motor carrier is authorized to conduct regular route operations and also in each additional State to which the carrier holds itself out to operate by publishing applicable fares and charges for transportation of special or chartered parties in tariffs lawfully on file with the Commission.

If the insurance of any regular route common carrier of passengers presently on file with the Commission does not meet the requirements of Rule VIII with respect to such carrier's special or chartered party service but is otherwise in full compliance with the insurance rules

and regulations, such carrier will not be required to effect arrangements to comply with Rule VIII insofar as it shall apply to the carrier's special or chartered party service until the date the insurance presently on file is cancelled or expires, provided such date is not beyond June 12, 1943.

If any such carrier having on file a tariff containing fares and charges for transportation of special or chartered parties suspends such service, or any portion thereof, for the duration of the war because of General Order O. D. T. No. 10 or otherwise, an appropriate tariff supplement reflecting that fact should be filed with the Commission and posted in the manner required by law, after which compliance with Rule VIII as to States to which service is suspended will not be required.
